

Features

1. Each LED can be individually controlled.
2. The unique honeycomb lens design allows for stepless rotation, creating a variety of dreamlike effects.
3. The display screen can automatically rotate 180° to adapt to different installation angles.
4. Combines multiple effects such as focusing, beam adjustment, color mixing, and pattern creation.
5. Scan position memory function with automatic reset.
6. Equipped with fan cooling and automatic temperature detection; the system will automatically stop working to protect the lamp when it detects excessively high temperatures.
7. Pack with carton

Specification

Voltage	AC90-240V 50-60HZ
Rated Power	760W
Light Source	19 high-brightness LED beads, 40W each (4-in-1 RGBW)
Beam Angle	4.5-40° Strobe: 1-25 times/ second with multiple strobe effects
Dimming	0-100% linear dimming
Channels	Built-in 7 channel modes: 21CH/23CH/35CH/78CH/92CH/97CH/99CH
Control	Artnet /DMX/ Artnet+DMX /Auto 1/Auto 2/Voice-activated
Horizontal Scan	540 degrees + 16-bit fine-tuning,
Vertical Scan	250 degrees + 16-bit fine-tuning
Display	Chinese and English display
Protection rating	IP66.
Carton packaging dimensions (one carton per carton)	65*37*54cm.
Net weight	17.5kg,
Gross weight	19.5kg.
