

Model: CAX-M6W

Description: X-talk cable, 180cm (micro USB), white

The Nexmosphere CAX-M6W X-talk cable is a high-quality, 180cm long micro USB cable specifically designed for use with Nexmosphere sensors and controllers.

Key features:

- **Compatibility:** The X-talk cable is compatible with various Nexmosphere devices, including sensors and controllers, ensuring seamless integration with your existing Nexmosphere setup.
- **Length:** With a generous length of 180cm, the cable offers flexibility in terms of device placement and installation. You can easily connect devices even if they are located at a distance from each other.
- **Micro USB Connector:** The X-talk cable utilizes a micro USB connector, which is a widely used standard across many devices and ensures reliable connectivity.
- **Durability:** The cable is built to last, designed with high-quality materials that offer durability and resistance to wear and tear.
- **White color:** The cable comes in a pristine white color, which can blend well with various aesthetics and environments.
